FOR THE RIGHTS
OF THE WORLD'S
CHILDREN

**« Be the change
you want to see
in the world »**

Gandhi

Let's join hands in this endeavor, to improve the lives of vulnerable children. As we all know, the world can be a better place when we can act together in harmony and bring about changes at our level.

Since 1976 Les Amis des Enfants du Monde Association has been working closely with some 40 partners around the world. Programs are initiated by local actors, communities and sometimes by the beneficiaries themselves. Our role is to accompany them in the deployment and empowerment of projects.

We are convinced that by acting for the overall development of children, we are making a real contribution to improving their future. Concretely we give them the opportunity to live their rights to the full, to realize their individual potential, but also to move the lines of society.

Making a commitment to children is one of the most relevant and effective levers on development, on a sustainable basis. It allows us to take concrete action today, but also to profoundly transform lives of children towards a better future.

Every child has the right to a family

When a child is deprived and when there is no longer any recourse in the country of birth, **adoption** can offer an emotional and protective framework for this child.

The best interest of the child is the backbone of our organization. We actively share our values of openness, respect and transparency with our partners and the families we support.

Accompaniment of families before, during and after the arrival of the child is essential. Adoption is for life, our organization supports families wholeheartedly all along the way.

Les Amis des Enfants du Monde volunteers are trained to provide answers and comfort to families and to those adopted, with kindness and openness.

More than 6,000 children from 10 countries have been adopted through us.

Give every child a chance

Our first level of action is to ensure the rights of the child, which, although formulated more than thirty years ago, are still flouted in many countries.

The programs that we co-finance allow them to grow up in good conditions, with access to quality education, in a secure family environment, with proper care and nutrition, essential to their well being.

They can therefore become independent citizen who participate fully towards the development of their country, improving the living conditions, the prosperity and equality in their society, promoting tolerance and peace.

This virtuous circle is based on programs initiated exclusively by local organisations, identifying the local needs, adapting to the situation and effectively implementing development programs for their empowerment.

Les Amis des Enfants du Monde volunteers are trained to accompany the partners in their organization, exchange on evolution of progress, support their development and lead them towards empowerment.

➤ The public generosity of our sponsors, donors, and the events organized by our volunteers allow us to collect the money that finances our programs. 80 per cent of the resources collected are reinvested in the programmes supported.
